CPESC® Certification Process

- You may obtain your CPESC® application by [CLICKING HERE](#).
NOTE: Certification is obtained via a specific application and approval process. Any individual may attend the "Review Course" but only individuals with written permission may sit for the exam.

- Day 1: Training Modules Include:** NPDES Rules & Regulations, Construction Site Storm Water Strategies, Predicting Soil Loss, Storm Water Runoff Control, Soil Stabilization, and Sediment Control
- Day 2: Exam**

Note: If a cancellation is unavoidable please inquire regarding the possibility of refunds.

CPESC® Certification is one process for becoming a QSD as referenced in the California General Construction Permit.
