January 27, 2011**

**8 AM — 5 PM**

Where:

**Central California  
Builders Exchange  
Conference Center  
1244 N. Mariposa St.  
Fresno, CA 93703**

The California State Water Resources Control Board (SWRCB) is now implementing training requirements relating to the Construction General Permit which became **effective July 1, 2010**, for storm water discharges associated with construction and land disturbance activities. By September 2, 2011, individuals developing and revising SWPPPs must obtain certification as a Qualified Storm Water Pollution Prevention Plan Developer (QSD), while individuals implementing best management practices and/or conducting site monitoring, sampling, and reporting activities must obtain certification as a Qualified Storm Water Pollution Prevention Plan Practitioner (QSP).

### *QSP/QSD (Days 1 & 2) Training:*

Topics covered include training overview and regulations, erosion processes, sediment control, SWPPP implementation, monitoring and reporting.

### *QSD (Days 1, 2, & 3) Training:*

Training includes project planning, site assessment, SWPPP development, permit registration documents (PRDs) and project closeout.

**Central California  
Builders Exchange**

*Cost:*

**\$350 per person  
QSP / 2 Day Training**

**\$450 per person  
QSD / 3 Day Training**

*Includes Continental Breakfast &  
Lunch Served On-Site Each Day*

*Presented By:* **WGR Southwest, Inc.**

(WGR) is an environmental, health, and safety consulting firm, having two offices in Northern and Southern California. WGR divides its environmental, health, and safety services into four basic sectors: Regulatory Compliance, Geotechnical, Emergency Response, and Business Applications. We offer multi-media regulatory compliance support in the areas of water, waste, occupational safety & health, and air. WGR is a minority owned small business. Our storm water services include assisting municipalities with their MS4 permit required Storm Water Management Programs; industrial companies with compliance to their Industrial General Permit; and construction companies with their SWPPP programs and BMP implementation.
